# SMITH RECOGNIZES AULICK INDUSTRIES FOR EXCELLENCE IN ECONOMIC DEVELOPMENT

BY Kevin Mooney | July 25, 2016

Third District Congressman Adrian Smith Monday announced that Aulick Industries in Scottsbluff is one of the eight winners of the 2016 Third District Excellence in Economic Development Award. Smith's award honors eight individuals and businesses helping to strengthen Nebraska communities through innovation, hard work, and entrepreneurship.

Aulick Industries has been owned by the Aulick family for three generations and employs approximately 100 people in welding, fabrication, tire installation, laundry, auto body tech, decal design, and administration. The company is also involved in Scottsbluff Public Schools' Every Child, Every Day, Everywhere initiative with a goal of introducing students to opportunities in manufacturing and technology careers in the region.

Smith says all of the nominees were recognized on the floor of the House of Representatives.
